5 。	On 16 September, the Hindenburg Kaserne (5581) in Stendal was occupied to capacity by approximately 1,500 soldiers. Sentries seen wore black-coordered red epaulets. A total of approximately 100 soldiers, organized in several groups, engaged in infantry and telephone training and training with rifle targets in the barracks yard. Motor vehicles were seen en route to and from the	25 X
	installation. Two Kniferest-type radar sets were located on a hill about 150 meters west of the installation.	
6.	On 18 September, the Moltke Maserne (5443) in Schwerin was occupied by approximately 600 soldiers wearing red-bordered black epaulets. Most of the soldiers also wore tank insignia. At 1730, 6 T-34 tanks including 2 SU-100 guns and 2 trucks with 40 soldiers entered the installation from the direction of the Schwerin freight station.	25X
7.	On 17 September, the Fritsch Kaserne (5544) in Schwerin was occupied by approximately 700 soldiers wearing blue-bordered black epaulets with signal insignia and red-bordered black epaulets with artillery insignia. The unit with the blue-bordered black epaulets was provided with radio trucks and with telephone and radio equipment. At 2030, 6 x 85-mm AM guns and approximately 40 soldiers wearing red-bordered black epaulets with artillery insignia entered the installation from the direction of Wismar. The light AM guns previously observed in the installation were no longer seen.	
8.	On 17 September, the Krueger Kaserne (5542) in Schwerin was occupied by approximately 1,500 soldiers wearing red-bordered black epaulets including some with artillery insignia. Aiming with 7 x 122-nm field howitzers was practiced in the barracks yard. At 0930 on 18 September, 12 x 100-mm AT guns towed by TA-12 prime movers entered the installation from the direction of Sternbuchholz. 5	
9.	The rocket launcher unit previously stationed in the Hindenburg Kaserne (5545) in Schwerin has not been observed there for about 3 months. During this period and up to 16 September, the installation was occupied by a rear detail of approximately 100 soldiers who were red-bordered black epaulets including some with artillery insignia.	
1.	Correct. The order possibly referred to the discharge of the 1931 class, which was inducted in 1951 and, therefore, is due for discharge. According to Order No 80, dated 5 September 1953, by Marshal Bulganin, Defense Hinister of the USSR, the bulk of the 1932 class, which was also inducted in 1951, was also to be discharged this fall. The information fails to furnish indications for the discharge of this class.	25X
2.	Convent. According to barracks installations tank details of the 1st Mecz Div	25X 25X 25X
		25X
	According to paragraph 3, the tank details probably transferred to the Meustrelitz area, where they also conducted tank firing practices in mid-August.	25X 25X
3.	Commont. It is assumed that after the exercises of the 207th Mtz Rifle Div in the Tangerhuette-Bittkau area in mid-August elements of the division transferred to their winter quarters. Similar observations were made at the 19th Cds Mecz Div in Magdeburg. The unidentified Sig Bn and the 594th Mtz Rifle Regt are believed to be stationed in the Tauentzien Kaserne and Hindenburg Kaserne respectively.	25X

	ONOTED:	25/1
	<i>~3∞</i>	
5.	Comment. Prior to 17 September, the units of the 940th AAA Bn	25X1
•	and the 159th Gds Sig Bn of the 94th Gds Mtz Rifle Div were stationed	
	in the Fritsch Kaserne as previously. Light units of the AAA bettalion	
	were possibly still stationed at a firing range.	25X1
	All clements of the 4th Gds Arty Brig of the IX Mtz Rifle Corps are	
	believed to have been stationed in the Krueger Kaserne on 18 September.	
6.	Commont. The various indications that units of the 10th Gds RL	25X1
٠٠١	Regt of the IX Mtz Rifle Corps have been stationed in Priemcyweld	_
	near Guestroy since about July, are confirmed by information in	ļ
	paragraph 9. Since, however, a detail	25X1
	of the regiment was still stationed in the old quarters in Schwerin	,
	in mid-September, it is assumed that the transfer was not permanent.
